New Peering Services

- We continue to see uptake of the peering services over larger ports

- This was intended to provide an easier upgrade path for members

- Since January 1st 2022, 43% of 1GE ports have migrated to 1Gbps peering service over 10GE ports

Peering Service	#	
1Gbps over 10GE	92	37
2Gbps on 10GE	50	-3
5Gbps on 10GE	22	+2
30Gbps on 100GE	25	+5

LINX Strategy cycle

- LINX Board and SMT set strategy in 3 year cycles
  - With annual evaluation

- The next cycle is 2023-2025
  - Work is ongoing on a revised strategy for the coming years
  - This will be discussed and approved at the 2023 Board strategy days at the end of March

- Just as we have done for the past year we will present this back to the members

LINX Nairobi Update

- License application has been approved – waiting for it to be issued
- Working on deployment at the IXAfrica DC

JEDIX Expansion

- As announced a year ago we are supporting STC in expanding JEDIX
  - Riyadh
  - Dammam

- We are waiting on the completion of the datacenter space for launch

Internal Systems

- Finance Systems
  - Jan 1st we have change to new finance systems, including PO and asset management
  - Some issues with DD payments but all members should have been contacted
- We continue to build more internally and externally facing tools
  - This is providing increased scalability
 - Tracking the usage of these tools among members

Feedback

- We track feedback on all our public ticket queues
  - These are reported on monthly
  - Comments are read and published internally

Support Feedback (1 = Good, 0 = Ok, -1 = Not Good)

Finance Feedback (1 = Good, 0 = Ok, -1 = Not good)
