

## The software team

### My Role

- Product owner within one of the software teams

### Our Responsibilities

- Develop changes to the LINX portal and ensure the quality of the user experience

### Our Ambition

- Ensure Self-service is quick and easy via automation

## **Today's demo**

### **The automation process**

- Run through the process to order a PVLAN service via portal
- Send out the invitation to the connecting member
- Talk through the process working in the background

# Demo and questions
