Status: Approved

QUALIFYING SERVICES POLICY

Clause 2 of the LINX Membership Terms requires that LINX members make operational use of a "Qualifying Service" in order to sustain their membership. This document sets out which services count as "Qualifying Services".

The "Qualifying Services" under this policy are:

- for all members, any of the services listed in Table 1; and
- for members joining through a LINX Channel Partner, any of the services listed in Table 1 or Table 2

Table 1: Qualifying Services for all Members

Column 1	Column 2
• Peering Bandwidth service (of any capacity) provided to a Port Access service connected to any of the IXPs listed in Column 2. • PVLAN service • Closed User Group service • Cloud Connect • MAPS	LON1 LON2 LINX Accra LINX Manchester LINX Mombasa LINX Nova LINX Nairobi LINX Scotland LINX Wales

Table 2: Qualifying Services for all Members joining through a LINX Channel Partner

Column 1	Column 2	Column 3
• Any Channel Partner service that incorporates the LINX Peering Bandwidth service provided through a Virtual Port of a capacity listed in Column 2 and provided via a ConneXions Port connected to any of the IXPs listed in Column 3.	100 Mbps 250 Mbps 500 Mbps 1Gbps Any whole number multiple of 1Gbps	LON1 LON2 LINX Accra LINX Manchester LINX Mombasa LINX Nova LINX Nairobi LINX Scotland LINX Wales

Note: In this document, "**Virtual Port**" means a ConneXions Port as defined in the *Terms for LINX Members Joining Through Channel Partners*.
